Job Description

We are hiring a skilled Full-Stack PHP Developer to build and maintain high-performance websites, ERPs, CRMs, and automation systems for Makes360 and our clients.

Key Responsibilities

- Develop responsive, scalable web applications using Core PHP & Laravel.
- Build backend APIs, admin dashboards, and authentication systems.
- Work on database design, schema optimization & performance tuning.
- Integrate 3rd-party APIs (payment gateways, SMS, email, WhatsApp APIs).
- Maintain, upgrade & debug existing systems.
- Collaborate with designers, PM, and QA teams
- Follow clean code, security, and documentation standards

Required Skills

Strong experience with Core PHP, Laravel, Codeigniter and MySQL.

Good knowledge of jQuery, AJAX, JavaScript, Bootstrap.

Understanding of REST APIs, MVC architecture.

Basic Vue.js/React knowledge is a plus.

Git, cPanel, hosting & server knowledge.

KPI & Performance Targets

- Code efficiency & quality.
- Timely delivery of modules.
- Bug-free deployments.

- System scalability & optimization.

Salary & Benefits

- ₹25,000 - ₹35,000 per month

Why Work With Us?

- 5 days working, casula dress code.
- Work form home on request.
- Work directly with CEO & leadership.
- 360° learning exposure across projects.

Growth Path

- Developer → Senior Developer → Team Lead → Technical Architect
